ABOUT THE SUMMIT

The Securitisation Summit is an annual coming together of stakeholders in structured finance industry in India, which has now moved on to its sixth year.

The claim to achievement of the Summit is that not only do we end up discussing matters, we pick points for advocacy and we take the same up with the relevant regulators , policy-makers or other concerned persons, so as to resolve/achieve what is desired. The resolution of the distribution tax issue, withholding taxes on payment to SPVs as well as permission to FII's for investing in securitisation transactions were picked up during previous summits, and we achieved effective results.

As a result, today, the securitisation market in India is drastically from what it was. With tax inefficiencies removed, and foreign investors allowed to invest in securitisation transactions, the market today is poised for a big take off, and in particular, to emerge beyond priority sector lending.

This years' summit is the first one after these remarkable changes. There is wide-spread investor and issuer interest currently, and whole lot of global investors are also optimistically looking at the Indian market.

There is a also a strong possibility of a market for securitisation of non-performing loans, as the scenario gets completely metamorphosed post the introduction of the Bankruptcy Code.

Thus, there are new asset classes, and there are new structures. Covered bonds and CLOs are also looking distinctily discernible .

We invite you all to come and be a part of this wholly changed scenario of structured finance in the country. You ,may hope to meet the who's-who of the stakeholders in the Indian structured finance.

AGENDA

Taking stock of market developments

Traditional and Alternative asset classes

Mortgage lending and securitisation

Creating an enabling regulatory environment

DETAILED AGENDA

Taking stock of market developments

- The state of the market in India - Did 2016 signal a watershed?
- Getting a new (or old?) class of investors - asset managers, insurance companies and others
- Foreign investors into Indian securitisation - what asset classes may interest them?
- Indian market classification - PSL & Non PSL
- Innovations so far tried in India

Traditional and Alternative asset classes

- The priority sector market - with MFIs turning into banks, is there sufficient supply?
- Is the market moving to new non priority asset classes
- Securitisation of non-performing loans - A new beginning?
- Potential for green securitisation in India
- Securitisation of trade finance - is there a market in India?
- Other interesting asset classes

DETAILED AGENDA

Mortgage lending and securitisation

- Residential mortgage lending - will the home lenders finally look at securitisation?
- Commercial mortgage lending - is the market for CMBS looking possible
- Rental securitisation

Creating an enabling regulatory environment

- Do the RBI guidelines of 2012 need a recast?
- SEBI's role as a key enabler
- Insurance regulations - are there missing gaps?
- Are the regulations facilitating enough to allow trading of SRs issued by ARCs

The Summit would be addressed by eminent experts from the Securitisation Industry.
